

Idaho Women Farmers & Ranchers: Preferences for Educational Delivery Formats

More than 40% of survey respondents identified in-person meetings as their most preferred delivery format for educational programs. A combination of in-person meetings and web-based content and a combination of live video meetings and web-based content were the next two preferred options. Online delivery formats with web-based content that participants complete on their own with no live or in-person meetings was the least preferred educational delivery format.

Please rank the following educational delivery formats according to your preference.

1 is most preferred and 4 is least preferred.

Total Question Responses: 448

In Spring 2021, the Idaho Women in Ag Research Team conducted a statewide survey to better understand the challenges and opportunities facing Idaho's women in agriculture and how educational programs can better support them. More than 400 women completed the full survey.
